

LCD PANEL DETAIL

Multiple views shown for clarity

- DECK STATUS
- Blinks REC In Record Mode
 - Displays Variable Speed Selected In Playback

Other display states

- E-E = Video passes from input to output
- Play = 1x playback speed; other playback speeds displayed in FPS

NOTE: If the RAPTOR 50VA is playing at a speed that is not 1x the VU meter displays the word "MUTE" and there is no audio output.
